He was 68 years, four months and 21 days of age and had spent most of his life in his native town, Topsham.

John Brown Morrison was the eldest son in a family of nine children; four sons and five daughters—born to William and Martha (Arthur) Morrison, long-time residents in Topsham. William Morrison, 1st, died in March, 1897.

The children were Martha, Mary, John, Nathan, Agnes, James, William, 2d, and Ida. One son survives, William, 2d, and the sisters, excepting the eldest, and the mother, now upwards of 80 years of age, who is tenderly cared for in the home of Josephine (Mrs. Alfred) Jackson at East Corinth.

In April, 1896, the subject of our sketch was living in marriage to Jennie A. White, daughter of H. B. and Harriet (Eastman) White. Three children were the fruit of the union. Paul L., now at Fort Monroe, Va.; P. Russell, now with J. C. Hood at East Barre; and Richard W., who died in infancy. The mother passed away in March, 1904.

It is due to the memory of John Morrison to say that he leaves an unimpaired record of good character. He was industrious, a good and reliable citizen, an excellent neighbor. If anyone near was sick or in trouble he was among the first to come forward with a helping hand. He will be missed, not only by the circle of relatives, but by many friends.

On account of the ban placed by the board of health on public assemblages, only a short service, attended mostly by relatives, was held at Topsham from the U. P. church on Thursday, Oct. 24, at 2 p. m. Interment was in the family lot.

WAS AS PALE

AS A GHOST

This Woman Had the Characteristic Symptoms of Anemia—Read What She Did for Herself in Six Weeks.

There are certain symptoms by which anemia, or lack of blood, can generally be recognized. They are pallor of the face and lips, shortness of breath on slight exertion, such as going upstairs, and palpitation of the heart. The thin blood also causes digestive disturbances in many cases and there are frequently pains in the back and head.

Overwork or worry will often hasten the debility in persons who have a natural tendency to anemia.

"I had been closely confined to business," says Mrs. Andrew H. Hoyt of Horseheads, N. Y., "and I suppose I overtaxed my strength, for early last summer I nearly broke down entirely."

"I had so little blood that I was as pale as a ghost. I was troubled with headache and backache and also with indigestion. I was always tired and weak and had shortness of breath at the least exertion."

"From reading about Dr. Williams' Pink Pills in the paper, I decided to give them a trial. I experienced relief within a week. My friends have remarked how much better my color is, and I certainly feel a whole lot better. My headaches are gone, I am much stronger, and am better able to attend to business. All this change has occurred in six weeks since I began taking Dr. Williams' Pink Pills."

"If you have any of the symptoms that Mrs. Hoyt describes, try building up the blood with Dr. Williams' Pink Pills. Eat nourishing food, exercise a little in the open air daily, and watch the color return to cheeks and lips. If you are below your normal weight, you should take on one or two pounds a week under this treatment."

The blood goes to practically every part of the body, and if it is rich and red it carries health and strength to every organ. The digestion is toned up, the nerves are strengthened and aching muscles are made strong. Dr. Williams' Pink Pills are especially useful to run-down women who worry about their daily tasks and duties.

In spite of the increased cost of all drugs, the price of Dr. Williams' Pink Pills has not been changed. Your own druggist can supply you or you can order direct from the Dr. Williams' Medicine Co., Schenectady, N. Y., enclosing five cents for one box or \$2.50 for six boxes. Write to-day for a free copy of the booklet, "Building Up the Blood."—Adv.

Tired, Nervous Women What You Need is Vinol

The reason we recommend Vinol so strongly for such conditions is because it is a non-secret remedy which contains Beef and Cod Liver Peptones, Iron and Manganese Peptonates and Glycerophosphates, the very elements needed to build up a run-down system and replace weakness with strength.

HERE IS PROOF

Glasgow Jet, Ky. "I was suffering from a nervous breakdown—loss of flesh and poor appetite so I could hardly drag around and do the work for my family. My doctor prescribed Vinol. It not only made me well and strong but I have gained in weight."—Mrs. S. M. Gray.

Milwaukee, Wis. "I was weak, nervous, I run down, no appetite and had ten different medicines without benefit. A friend advised me to try Vinol. It gave me a wonderful appetite, I sleep well, have gained in weight and am now strong and well."—Mrs. E. Strey.

For all run-down, nervous, anemic conditions, weak women, overworked men, feeble old people and delicate children, there is no remedy like Vinol.
